Description:

What Jennifer Michael Hecht manages to accomplish, in poems that demonstrate a mastery of craft and a uniquely voiced understanding buoyed with an air of brilliance, is astonishing. Her introduction explains - in her endlessly appealing half-outrageous, half-conspiratorial voice - her purpose: to offer a guidebook for those that come after. We are the next ancient world, and Hecht chronicles our motivations, our interactions, our dreams and half-remembered thoughts with wit, aching romance and savvy intuition. Out of the quotidian, Hecht manufactures something mythic. It is an unparalleled view that confers on the human condition an aspect of the eternal, that locates the momentous in every moment. In short, one cannot read one of her poems without an equal measure of relish and envy. The Next Ancient World offers a unique voice and vision, informed with full measures of play, wisdom, and the sheer joy of invention.

After having nearly given up on poetry, the intriguing, personal and sometimes nearly Delphic poetry of *The Next Ancient World* is an invigorating relief. Ms. Hecht has a frighteningly perceptive view not only of the Ancient world but how it fits in with our modern fears and hopes. From the almost Blake like exploration of *The Innocent* to a frightening awareness of history's terror in *Waiting to Happen* (more so since the disaster of September 11, 01.), there is a sense that intellectualism still has an almost visceral pulse to it. This is reinforced with poems like *Tigers Story* (an interesting perspective on life and change), and *Trotsky's Hand*, a whimsical exploration of the strange persistence of images that haunts any person born in the modern age. The poet states her intent as creating a book of advice to the next ancient world, and many of her poems demand some response, such as *Please Answer All Three of the Following Essay Questions*, or *Convince Him*, poems that seem to help the reader create their own story beyond the bounds of a simple book. This becomes a magic that even the cynical and jaded reader can still accept, couched in sophisticated lyric and sharp wit. If you are willing to be inspired by the creations of a precise and yet tender mind, you may gain something from this work. Poems that make you think, laugh, sigh, and sometimes shiver, all packed into a slim volume: What a value!!!
